**Subject:** Amazing progress on GenAI

Hey Guys,

Thanks for the update on your GenAI efforts. Very very promising. As I said I think everyone on the board will want to be on the pre-alpha for Orbit - including moi. More generally - I am happy to engage with you guys on this in depth. I still need to get through my August - as I have both my wife and daughter going back to school to two different states.

Lets plan for an early rendezvous in September.

Adding @Short, Karen for diary coordination.

Please do add me to your alpha :)

K
